HANDLEBARS & CONTROLS

NEW
REDUCED REACH HANDLEBAR

This Reduced Reach Handlebar repositions the handgrips and upper controls 2 inches closer to the rider for an easy reach and confidence-inspiring control. This handlebar stretches back toward the rider to conveniently relocate the upper controls. It is a direct replacement for the standard handlebar. Installation kit may be required depending upon model.

2884997-266 Matte Black \$229.99

NEW
CRUISER HANDLEBARS

These Cruiser Handlebars infuse your bike with classic cruiser style and they offer a relaxed reach to the bars for comfortable riding and confidence-inspiring control of your bike. Their premium finish complements the components and accessories on your bike. These bars install as direct replacements for the standard handlebars. Installation kit may be required depending upon model. Stock on Super Chief and Super Chief Limited models.

2884999-266 Matte Black \$229.99

NEW
MINI APE HANDLEBARS*

This Mini Ape Handlebar adds style and comfort to your ride by putting your hands in a slightly elevated position and creating a relaxed reach to the hand grips. The hand grips and upper controls are positioned higher than the standard position for arm positioning that feels great on the road. The bar's black finish makes it an ideal complement for the bike's other black components. It installs in place of the standard handlebar. Installation kit may be required depending upon model.

Indian Motorcycle invests millions in engine development, and part of that investment is making sure its lubricants—critical to engine performance—are the right formula for your specific engine. The amount of testing data and engineering resources used in developing Indian Motorcycle lubricants would overwhelm an aftermarket company. Therefore, the aftermarket must produce an oil to an industry-wide standard that accounts for a variety of operating parameters.

15W-60 FULL SYNTHETIC ENGINE OIL

Approved for use in all air cooled and liquid cooled Indian Motorcycle engines. Our wide viscosity range and advanced SN level additive system smooths shift effort, enhances clutch wear and feel for positive engagement under heavy loads, and delivers the best thermal heat and cam wear protection available.
